To Whom It May Concern:

From November 5 to November 23, 2018, pursuant to our agreement with Atlassian Pty Ltd., the Bishop Fox assessment team conducted a cloud deployment review, architecture security assessment, hybrid application assessment, external penetration assessment, and threat modeling of the OpsGenie platform.

The assessment objective was to identify, within the designated time and scope, any security issues in the OpsGenie platform. The assessment team combined automated application vulnerability scanning, code review, and manual penetration testing techniques in order to rapidly locate attack vectors and simulate real-world exploitation.

Atlassian has been provided the detailed findings and recommendations resulting from the assessment.

Bishop Fox is a leading IT security consulting firm providing services to the Fortune 500, global financial institutions, and high-tech startups. It specializes in security assessment, penetration testing, and enterprise security. For information on Bishop Fox's testing methodology, please see the appendix included with this letter.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Hays". The signature is fluid and cursive, with the first name "Justin" and last name "Hays" clearly distinguishable.
